Published September 2017

Welcome

Tollcross Housing Association is pleased to present our Landlord Performance Report on the Charter 2016/17. You will find within this report how Tollcross Housing Association performed during the year and we have also compared ourselves against four of our local peer group Associations. These are Milnbank, Parkhead, Shettleston and West of Scotland.

About The Association

Tollcross Housing Association Limited was formed in 1974 and owns and manages 2,219 houses and flats in Tollcross, Carmyle and Lilybank/Newbank (at 31st March 2017). We also act as factor to 576 residential and commercial property owners.

The Association is managed by a voluntary Management Committee including local residents and others with specific skills helping us ensure the Committee are able to demonstrate their continued effectiveness. Our services are provided by 43 staff members within the following departments: -

- Corporate Services
- Finance (including factoring)
- Housing Management
- Maintenance

Membership

If you would like to have your say in how the Association is run you have the option to join the Association, which gives you privileges not open to non-members, such as access to our Annual General Meetings and authority to approve key documents like our Annual Accounts. In addition, you can stand for election to join the Management Committee who oversee and direct the Association's activities. We provide all necessary training, with the existing members of the Committee always willing to help guide you through those first few meetings. If you are interested in finding out more, then please contact a member of staff.

Customer Feedback

Based on the feedback we received about last year's Report, it looks like the PIN members' efforts continue to be worthwhile. Of the 40 people who responded to our feedback questionnaire, 92.5% said they thought the information was useful and 95% said they liked the layout. Although we will continue to provide the report on its own, previous feedback has indicated our residents are more likely to remember seeing it within our newsletter. We will therefore, continue to include the report details within our Autumn newsletter each year. As we aim to increase digital access, we shall also make the Report available on our website, www.tollcross-ha.org.uk. Please let us know your views.

Other Formats

On request, the Association will provide translations of all our documents, policies and procedures in various languages and other formats such as computer disc, tape, large print, Braille etc. and these can be obtained by contacting a member of staff.

We commission an independent survey of our customer's views at least every 3 years and the results from our 2016 survey are outlined below. We are pleased to note that efforts made to improve performance identified in the 2013 survey has paid off as there are only 3 of the 19 indicators considered in this report where performance has not improved. These relate to emergency repairs, repairs completed right first time and rent collected in the reporting year. We present the findings from our surveys in our quarterly newsletter and the members of our Performance Improvement Network continue to assist us in our commitment to continual improvement.

Housing Quality & Maintenance

The Association's properties are currently measured against the Scottish Housing Quality Standard (SHQS). 80.8% of our properties meet this standard, compared to the local peer group average of 93.9%.

We will seek an exemption from SHR for a further 18.5% of our stock, as although we have carried out extensive major works in many of these tenemental properties, they will always fail to meet the standard, due to the restricted size and layout of the kitchens.

Of the 907 **emergency** repairs carried out this year, we took an average of 2.2 hours to complete them, compared to

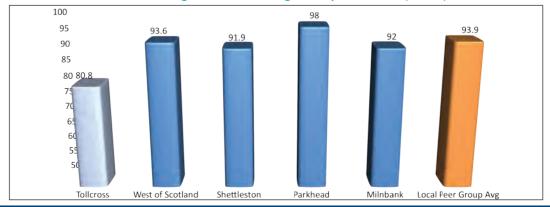

the local peer group average of 4 hours. This is a reduction from 1.65 hours in 15/16.

We carried out 5005 **non emergency** repairs. We took an average of 2.4 days to complete these repairs, compared to the local peer group average of 4.2 days.

94.6% of reactive repairs carried out in the last year were completed **right first time**, compared to the local peer group average of 91.7%. This is a reduction from 97.4% in 15/16.

The first Scottish Social Housing Charter (The Charter) was introduced by the Scottish Government and came into effect on 1st April 2012. It was reviewed during 2016 and the revised Charter came into effect from 1st April 2017.

The Charter is designed to "help improve the quality and value of the services that social landlords provide, and supports the Scottish Government's long-term aim of creating a safer and stronger Scotland."

The Scottish Housing Regulator's role is to check that the Association is meeting the Charter outcomes.

The PIN members considered the indicators contained within the Annual Return on the Charter and have recommended that we measure the Association against a cross section of these indicators. If you wish to compare us against other landlords, please visit www.scottishhousingregulator.gov.uk.

The PIN members recognise that the Association is committed to continual improvement and where we are not measuring well, the PIN members help us find ways to help us improve the standards.
